WORK EXPERIENCE

QA / QC   06/2023 - Present

Straive / KB infotech - Chennai

- I currently hold the position of QA/QC Specialist at Straive, an Ebook platform company.
- I am employed at KB Infotech and operate as a vendor maintenance specialist within the QA/QC team at Straive.
- My primary responsibilities involve utilizing the Epsilon editor to address and rectify issues within Ebooks, where I apply my skills in HTML and CSS to resolve any content-related problems.
- Successfully resolved a wide range of Ebook bugs, including layout inconsistencies, formatting errors, and navigation issues, ensuring a seamless reading experience for users.
- I have experience working on the Bronte and Cypress platforms to ensure the quality and integrity of the digital content.
- Played a pivotal role in maintaining the integrity and quality of Ebook content on the Bronte and Cypress platforms.

Organizer and Executive – PART TIME   2020 – 2021

SUPR DAILY – Chennai

- Played a key role in organizing and coordinating essential daily deliveries for SUPR DAILY, a prominent provider of essential goods.
- Worked in a part-time capacity, demonstrating commitment and dedication to ensuring the smooth operation of essential deliveries.
- Collaborated with a team to effectively manage and execute daily delivery operations, meeting strict deadlines and maintaining a high level of service quality.
- Demonstrated strong organizational skills to optimize delivery routes and ensure timely and accurate deliveries to customers.
- Contributed to the mission of SUPR DAILY in providing essential goods to customers, making a positive impact on the daily lives of the community.

PROJECTS

UV Arts web page   05/2023 – Present

- **Description:** Currently developing a responsive and fully functional artist portfolio website, "UV Arts," to showcase my artistic work and provide an interactive platform for visitors.
- **Technologies:** Utilizing HTML, CSS, JavaScript, and Bootstrap to create an aesthetically pleasing and user-friendly website.
- **Key Achievements (Planned):**
  - Implementing a responsive design for optimal viewing on various devices.
  - Integrating interactive features for a seamless user experience.
  - Combining technical and artistic skills to create an engaging online presence.

ASUS Laptop Landing Page (Training)   01/2023 – 05/2023

- **Description:** Created an ASUS Laptop landing page as part of my front-end developer course at Login 360 Institute. This project served as a valuable learning experience in web development.
- **Technologies:** Developed the webpage using HTML, CSS, and JavaScript, gaining practical experience in front-end development.
- **Key Learnings:**
  - Designed and implemented the layout and content for a product landing page.
  - Gained proficiency in HTML, CSS, and JavaScript while learning to create interactive web elements.
  - This project was an important step in developing foundational skills for web development and design.

- **Description:** Developed GO-V21, a 2D endless runner game, as an inspirational project during the COVID-19 period to raise awareness.
- **Technologies:** Created using C# and the Unity platform, showcasing game development and programming skills.
- **Assets:** Designed and produced all in-game assets, including characters, scenes, and more, using Adobe Illustrator and Photoshop.
- **Outcome:** Successfully launched the game on the Google Play Store, reaching a wide audience and effectively conveying its message of awareness during the challenging pandemic times.
